WARNING: This product is not a toy. Keep out of reach of small children and pets.

Do not look directly at the LED Lights.

At the end of its useful life, batteries must be removed from the product and disposed of appropriately.

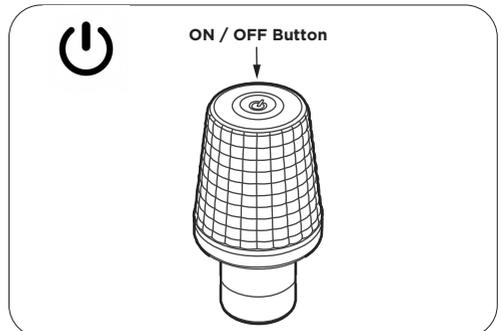

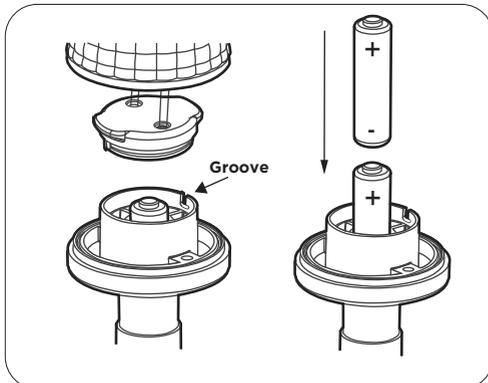

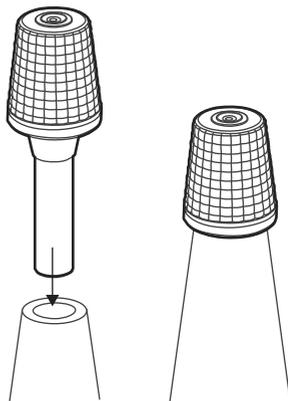

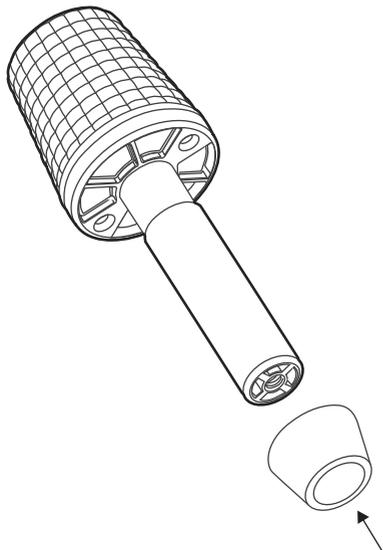

1. Installing / Removing Batteries

1. Remove screws from the underside of the lens body with your screwdriver and lift the lens two inches.
2. Grip, twist and pull battery cap away from the base.
3. Insert two AA batteries as featured.
Note the correct polarity (+ or -).
4. Align the lip and groove, then replace battery cap. Twist to secure cap.
5. Replace lens and secure screws.

2. On/Off Button

1. Press once to activate flashing light, press twice for static and a third time to switch off.

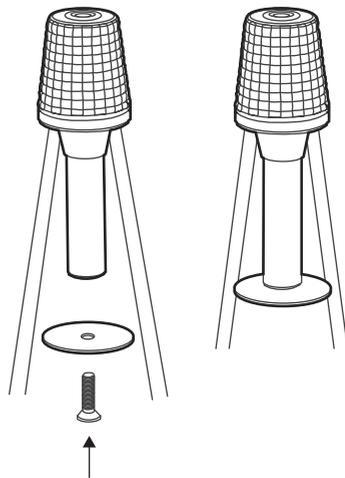

3. Fit the rubber collar and position

Slide the rubber collar over the base from the bottom. Then position the light on top of the cone

4. Fitting security plate

Fasten the plate and screw from the underside of the cone with the magnetic tipped screwdriver

Warranty Information

We warrant the product against defects in materials and workmanship, under ordinary consumer use, on delivery and for a period of 12 months from the date of delivery. If the product proves defective during the warranty period, we will ask you to follow the instructions for returning the product that we will provide you with, and we will take one of the following actions:

(1) Replace the product with one that is the same or equivalent to the product you purchased; (2) Repair the product; (3) Refund to you the whole of or part of the purchase price of the product. Due to product advancement and product availability, the replacement product may differ slightly and may have a lower selling price from the original product you purchased. Made In China.
