WARRANTY**

Stackable

STACKA Barrier Safety Lights are manufactured to retrofit simply and easily to all types of roadway barriers.

Designed with special consideration for high convenience and low maintenance, these safety lights are fully stackable, so barriers can be positioned, collected, and stored with no need to remove the attached lights.

Versatility

Durable Safety Lights for Barriers and Construction Areas

Engineered for demanding job sites, these safety lights feature a robust, impact-resistant design built to withstand harsh environmental conditions.

Ideal for use on barriers, skip lugs, and Heras fencing, they provide reliable visibility and enhanced site safety across a wide range of applications.

Performance

Improved Battery Performance

A new battery boost feature optimizes power use, helping the light stay brighter for longer and reducing dimming over time.

Brighter Illumination with New Motion Mode

Now equipped with additional LEDs for greater brightness, plus a new motion-sequencing mode for enhanced performance and visual effect. The 360 degree amber lenses provide flashing visibility for up to 1500 hours.

Low-Battery Indicator

The light gently flickers when the batteries are running low, letting you know it's time to replace them.

Specification

Weight	Size	Power	Modes	Flash Pattern	Ing. Protection	Operating Temp.
322g	227 x 115 x 80mm	2 x AA Alkaline Batteries	Flashing, Motion, Steady	500 Milliseconds	IP 54	-15°C to +45°C
